

MODEL H2™ PLUS Poultry Feeder

The Poultry Feeder Designed for Easy Management

Let's grow together®

The MODEL H2™ PLUS Poultry

Feeding System from Chore-Time helps you manage the early days of feeding to achieve maximum weight gain and outstanding conversion. Pans can be flooded at any time with the desired amount of feed with the simple turn of a crank. Birds get off to a good start, feed waste is minimized, and birds have consistent access to fresh feed.

Product Features

- All-plastic construction and U.V. protection.
- Moveable feed cone for flooding of pan or for lower feed level as birds grow. Internal flood windows.
- Four different grill-less models, with gray or green dome, and two power unit choices.
- Pan attaches securely to support or hangs for cleaning.
- Feed saver features include the deep, "V"-shaped pan bottom and double pan lip.

Product Advantages

- Pan assemblies are designed for durability and long life in broiler and turkey poult applications.
- Feeder options allow a customized feeding system to suit management style and type of poultry being raised.
- System is designed for management simplicity whether starting birds, growing birds, or cleaning between flocks.
- Large feeder dome encourages perimeter eating for more bird eating space. Pan design discourages birds from wasting feed.
- The flow of fresh feed is controlled from the feed bin all the way to the perimeter of the pan.

Single handle adjusts cones on 300 feet (92 meters) of feeder line.

Count on Chore-Time for experience, reliability, performance and confidence.
